Medstrom Ltd are fully compliant with The Waste Batteries and Accumulators Regulations 2009 and The Waste Electrical and Electronic Equipment Regulations 2013

WEEE Producer Number: WEE/FA5715VR  
Batteries Producer Number: BPRN05487  
NPWD Code: NPWD302291

We're pleased to offer free recycling on all our old equipment and batteries. Old electrical equipment can be recycled, it is now marked with a crossed-out wheeled bin symbol shown below. Please do not throw any electrical equipment (including those marked with the crossed out wheeled bin symbol) in your bin. Any Medstrom obsolete equipment and batteries can be returned to our Service department for responsible disposal.

### Industrial Batteries

As a producer of industrial batteries under the Waste Batteries and Accumulators Regulations 2009, we Medstrom Ltd produce Lead acid batteries. We are obliged to take back free of charge, waste industrial batteries supplied to an end user for treatment and recycling. We are required to do this in any calendar year we place new industrial batteries on the market. If any of our customers or in certain cases other end users, require us to take back Industrial batteries, they should contact us at [quality@medstrom.co.uk](mailto:quality@medstrom.co.uk). We will agree the necessary arrangements for the return, proper treatment and recycling of the waste industrial batteries.
